Gear and Accessories to Compliment Your Vehicle

The experience of overlanding is not complete without being in the outdoors. So you have the most comfortable lodging on 4 wheels, but aren't you are cheating yourself if you don't spend time outside, enjoying Mother Nature? You will probably want to pick up a few outside accessories and furniture, so that you can take full advantage of your surroundings. Space saving, quality accessories, that are durable and will last many years, will complement your off-road lifestyle and give you many hours of pleasure. One company, that specializes in that particular style of equipment is Snow Peak of Clackamas, Oregon.

The company was founded in 1958 in Niigata, Japan by a climber who found local products insufficient. Snow Peak continues this tradition of making high quality products that meet users needs wherever they are

enjoying the outdoors. It remains a family owned company with a mission to being users themselves and listening to their customers to design and build products they want. They use the best materials to develop the best camping gear in the world so that it will last you a lifetime.

They offer some of the finest appliances for cooking that you can find on the market. With a focus of versatility, quality, and compactability, the Iron Grill Table comes in a variety of frame sizes that can be used with a wide range of cooking inserts, such as a double BBQ box, a single burner stove and table extensions. Also offered is a wide range of cookware and tools to make your experience like no other. All of this is

with space in mind and the cookware nests together to take up minimal space, but give you enough items to cook anything.

Dining, Snow Peak style, is quite unlike any other culinary experience. Their furniture folds down intuitively so that it's quick and easy. It's made of high quality bamboo so it's nice enough to bring into your home for use after camping, and all of their furniture, whether it's tables or chairs, is made with metal joints and rails. Plastics are only used as bushings and spacers.

In any camping situation fire is a gathering place and, at Snow Peak, they want you to be able to enjoy this where ever you are. Their Pack-n-Carry fireplace quickly collapses and provides you a way to have a fire in those areas that are environmentally sensitive. Elevating your fire keeps the ground cool to prevent damage to the ecosystem.

They also offer a wide range of tents and tarps so you can further enjoy the natural world outside of your vehicle.

So, if you're looking for quality accessories to compliment your Expedition Vehicle, don't hesitate in contacting Snow Peak or Equipt Expedition Outfitters for quality Snow Peak equipment.
